

Take it Slow When Driving in Snow

Driving in winter weather can be both a frightening and dangerous experience. All drivers should be cautious when driving in wintry conditions. Follow these tips to drive safe this winter:

Use steady pressure on the accelerator, don't push to floor

Remember that bridges and overpasses freeze first

Keep lights and windshield clear of snow & ice

Reduce your speed and leave plenty of distance from other vehicles

Brake gently to avoid skidding or sliding

Always wear your seatbelt

You should also keep these items in your vehicle in case of an emergency...

- Shovel
- Flashlight
- First aid kit
- Blankets
- Cell phone charger
- Sand or kitty litter
- Emergency flares/reflectors
- Water
- Jumper cables
- Windshield scraper
